Introduction

In its Code of Ethics, the Polytechnic of Portalegre assumes, among others, the principles of equity, justice, non-discrimination, human rights and citizenship. Also the Quality Policy, Social Responsibility and Conciliation between professional, family and personal life of the Polytechnic represents a commitment of the top management to develop its activities with respect and concern for the satisfaction of the interested parties, with particular concern for the workers, promoting an environment of respect for the dignity and rights of people, repudiating any manifestation of discrimination and abusive practices regarding gender difference.

In the path of these concerns, the strategic development plan 2022-2025 pays particular attention to the workers, in one of the five strategic axes - PEOPLE, CITIZENSHIP AND SOCIETY where it identifies as priorities actions focused on the individual and on their personal and professional enhancement.

Continuing this concern with people's dignity, the Polytechnic determines, in the present plan, three areas of action, where it identifies the objectives and actions that will allow the institution's gender equality policy to materialize: human resources management, integration and well-being in the community, and communication and training.

These areas of action arise from the reflection made on the results achieved in the first year of the gender equality policy's implementation, which began in April 2022.

Thus, the definition of the objectives and actions presented in this edition takes into account, not only the resources and skills available in the institution, but also the needs and problems identified at the level of this theme in the academic community of the Polytechnic of Portalegre.

## 1. Diagnosis

1.1. Human resources: characterization of the staff in the years 2019, 2020, 2021 and 2022

The following table shows the distribution of the total number of employees in office at the Polytechnic of Portalegre in the years 2019, 2020, 2021 and 2022.

| YEAR | TOTAL |
| :---: | :---: |
| 2019 | 364 |
| 2020 | 386 |
| 2021 | 369 |
| 2022 | 385 |

1.1.1.Total number of staff distributed by gender

The following table presents an overview of the characterisation of employees by gender in the years under analysis.

| YEAR | MALE | FEMALE | TOTAL |
| :---: | :---: | :---: | :---: |
| 2019 | 199 | 165 | $\mathbf{3 6 4}$ |
| 2020 | 219 | 167 | $\mathbf{3 8 6}$ |
| 2021 | 217 | 152 | $\mathbf{3 6 9}$ |
| 2022 | 152 | 233 | $\mathbf{3 8 5}$ |

1.1.2.Teachers and non-teaching staff by gender

In the years under analysis, the teaching staff has a higher percentage in relation to the total number of workers, with a rate of $60 \%$ in $2019,61 \%$ in 2020 and $63 \%$ in 2021 and 2022.

Both in the group of teaching and non-teaching staff, there is a predominance of female workers over the four years under analysis.

| YEAR | TEACHERS |  |  |  |  | NON-TEACHING STAFF |  |  |  |

### 1.1.3.Distribution by career and gender

The distribution of employees is broken down into seven professional groups, structured in the following way, with regard to gender:

The managerial staff group shows a clear predominance of the male gender, with rates of $84 \%$ and $82 \%$, versus $16 \%$ and $18 \%$ of the female gender, in the years 2019 and 2020 , respectively. In 2021 and 2022, this trend changed substantially.

In the groups of senior technical staff and technical assistant, female workers stand out, with a prevalence that varies between $83 \%$ and $74 \%$ (senior technical staff) and $69 \%$ (technical assistant).

With regard to the groups comprising the categories of operational assistant, IT staff and research staff, once again male workers prevail, with rates varying between 100\% (IT staff and research staff) and between 52\% and 55\% (operational assistant). In 2021 and 2022, this trend changed, in the case of operational assistants. Moreover, in 2022, there is an inversion of the rates of the research staff.

The male teaching staff shows percentages between $41 \%$ and $46 \%$, while the female staff registers slightly higher percentages (between 54\% and 59\%).

The following table and charts present, in detail, the data concerning this item.

|  | 2019 |  |  | 2020 |  |  | 2021 |  |  | 2022 |  |  |

| TOTAL | 165 | 199 | 364 | 167 | 219 | 386 | 152 | 217 | 369 | 152 | 233 | 385 |

### 1.1.4.Contractual relationship by gender

The employees of the Polytechnic of Portalegre are divided into the following types of contract and gender:

| CONTRACTUAL RELATIONSHIP | 2019 |  |  | 2020 |  |  | 2021 |  |  | 2022 |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Male | Female | TOTAL | Male | Female | TOTAL | Male | Female | TOTAL | Male | Female | TOTAL |
| PRESIDENCY | 2 | 0 | 2 | 2 | 0 | 2 | 2 | 0 | 2 | 2 | 0 | 2 |
| SERVICE COMMITION | 4 | 2 | 6 | 3 | 2 | 5 | 3 | 2 | 5 | 8 | 5 | 13 |
| CTFP TI | 108 | 148 | 256 | 113 | 152 | 265 | 96 | 149 | 245 | 90 | 151 | 241 |
| CTFP TC | 51 | 49 | 100 | 49 | 65 | 114 | 49 | 63 | 112 | 49 | 75 | 124 |
| CTFP TRI | 0 | 0 | 0 | 0 | 0 | 0 | 2 | 3 | 5 | 3 | 2 | 5 |
| TOTAL | 165 | 199 | 364 | 167 | 219 | 386 | 152 | 217 | 369 | 152 | 233 | 385 |

From the detailed analysis of the table presented above, it can be inferred that throughout the four years under analysis, the members of the Presidency are male, as well as in the group of workers on service commission, in which the male gender also prevails. In relation to the groups which include workers on open-ended and fixed-term contracts, the majority of workers are female. However, it was observed that, in 2022, there was a slight increase of workers of the male gender on undefined resolutive term contract.

The following graph shows the above information in percentage terms.

The percentage of coordinating professors is higher in the male gender in the years 2019. In the year 2020, the female gender equals the percentage of coordinating professors, relative to the male gender. The category of associate professors, shows a percentage of female teachers, higher than male, in all years.

### 1.1.5.Age range by gender

From the data presented below, it can be concluded that the group comprising the age range between 40 and 59 years is the most significant, with a total of $261,273,267$ and 274 workers in 2019, 2020, 2021 and 2022, respectively, resulting in the percentages presented below.

| AGE RANGE | 2019 |  |  | 2020 |  |  | 2021 |  |  | 2022 |  |  |

| TOTAL | 165 | 199 | 364 | 167 | 219 | 386 | 152 | 217 | 369 | 152 | 233 | 385 |

With regard to this variable, and as can be seen in the previous table and in the graphs below, the most predominant level of education among the employees of the Polytechnic of Portalegre is higher education.

With the exception of the master's degree, which in 2019 shows a slightly higher percentage of male workers than female workers, the percentage of female workers with degrees that include bachelor's, master's and doctorate is higher in the four years under analysis.

The analysis of the level of qualifications in the teaching career shows that in 2019, the number of male teachers with a master's degree is higher than that of female teachers. However, with a doctoral degree, the number of female teachers is significantly higher than that of males.

In 2020, the rate of female teachers in any of the degrees will exceed that of males.

1.2. Students and graduates: characterisation of the years 2018, 2019, 2020 and 2021

In the years in question (2018/19; 2019/20, 2020/21 and 2021/22), the total number of students enrolled and graduates is shown in the following graph, whose analysis allows us to infer that there is a notorious growth in relation to the total number of enrolled students, throughout the years under study.

With regard to the total number of graduates, there is an increase in 2019/20, compared with that verified in 2018/19, a trend that suffered a significant slowdown in 2020/21. In 2021/22, a slight increase was registered, when comparing to 2020/21.

1.2.1.Enrolled and graduates by school and gender

### 1.2.1.1. School of Education and Social Sciences

In the School of Education and Social Sciences, there is a predominance of female students in all years and at all levels of education. This trend is visible both in the number of students enrolled and in the number of graduates.

### 1.2.1.2. School of Technology and Management

In the School of Technology and Management there is a predominance of male students, in all years and at all levels of education, in terms of the number of students enrolled. This trend continues in the number of graduates, with the exception of undergraduate degrees in the academic year 2018/2019 and 2019/2020, as well as the master's degrees in the academic year 2021/2022, where the number of female students who graduated exceeded the male students.

### 1.2.1.3. School of Health

The School of Health shows the same trend as the School of Education and Social Sciences, with a predominance of female students, in all years and in all levels of education, both in the number of students enrolled and in the number of graduates. Two exceptions were verified, with the first one being in the number of enrolled students of the CTeSP courses, in the academic year of 2018/19, and the second one being in the number of graduates from the CTeSP courses, in the academic year of 2019/20.

### 1.2.1.4. Elvas Agricultural College

The female gender is also predominant in the Escola Superior Agrária de Elvas, in most of the situations analysed. An opposite trend is recorded with the number of male students higher than female, in the number of enrolled in master's degree courses in 2018/2019 and 2021/2022, in the number of enrolled in CTeSP courses in 2019/2020 and in the number of CTeSP graduates in 2020/2021.

1.2.2.Enrolled and graduates by school, gender and course

The following sections present the characterisation of the four schools with regard to the number of students enrolled and graduates, by gender and in each course, in the 2018/2019, 2019/2020, 2020/2021 and 2021/2022 academic years.
